

MABIOR DUOM

Front-End Developer

SUMMARY

Front-end developer with over a year of experience building responsive and efficient projects while delivering ideal user experiences and user interfaces.

EXPERIENCE

Intern at ACOP

May 2021 – August 2021

- Improved the UX and UI of the company website.
- Built a management system using HTML, CSS with PHP as the backend.
- Collaborated with other developers to discuss new features.
- Software Installation & Configuration such as operating systems, Linux & Windows
- Software Testing and Debugging.

PROJECTS

Saul-Firm - Live Demo

A law firm website concept with multiple types of law under one roof such as Corporate, Criminal, and Real estate laws.

CampAd - Live Demo

A camp adventure website concept where users are able to browse different activities to do related to camping and nature.

Universe - Live Demo

Built from my interest in the Universe. Get to know about the universe and solar system, enjoy exploring.

Car-Rental - Live Demo

A car rental website concept. Users browse cars to rent by type. SEO Optimized & contains reveal-on-scroll animations.
